

Parts Inventory List

(I wrote this list down as I went through each of my shelves, so if pg.1 has an item that's also listed on pg.4, that means there's 2 of that item. Sorry it's out of order, that's why the list is in .pdf format, so you can search for specific words. I plan on categorizing the list as soon as possible.) Also, unless an item specifies otherwise, all parts are for a 1963 Catalina 421 HO. Parts listed are NOS and used OEM. For more details on a specific part, please contact me and I'll answer any questions you may have.
